Finance Minister Tito Mboweni delivers the Budget Speech.

During his recent Budget Speech in Parliament, Minister Mboweni assured South Africans that the country is on a bold new path and spoke about what government plans to do for the nation and its citizens.

citizens.

The Minister said that the Budget focuses on six areas. These include achieving a higher rate of economic growth; increasing tax collection; reasonable, affordable expenditure; stabilising and reducing debt; re-configuring state-owned enterprises (SOEs); and managing the public sector wage bill.

"Taxes raised in wealthier areas fund poorer provinces and municipalities. In this budget, 47.9 percent of nationally-raised funds have been allocated to national government, 43 percent to provinces and 9.1 percent to local government. Pro-poor spending continues to grow in real terms," he said.
